

NISHANT SHARMA

+91 6350435068 | business.nishant777@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Backend-focused Full-Stack Developer specializing in complex business logic and cloud infrastructure.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Java, SQL

Backend: Node.js, Express.js, Spring Boot, RESTful API Design, gRPC, Apache Kafka

Frontend: Next.js, React, HTML/CSS, Shadcn, Ejs

Databases: PostgreSQL, MySQL, Prisma ORM, MongoDB

Cloud & DevOps: AWS (EC2, RDS, S3, ECS, MSK, CDK), Docker, GitHub Actions CI/CD, Nginx, WSL

EXPERIENCE

Software Engineer Intern | Pratham Software | March 2026 - June 2026

Java, Spring Boot, MySQL, Next.js

- **Building** an end-to-end internal employee appraisal system, architecting a layered **Java backend** to handle multi-step review cycles and complex HR workflows.
- **Designing and integrating** RESTful APIs with a **Next.js frontend**, ensuring secure data flow and strict Role-Based Access Control (**RBAC**) for administrators, managers, and employees.

TECHNICAL PROJECTS

VizTube - Production Video Platform API | [GitHub](#) | [Live API](#)

Node.js, Express, PostgreSQL, Prisma, Docker, AWS, GitHub Actions

- Developed a high-volume video streaming backend for concurrent media uploads, deploying a cost-optimized micro-infrastructure on **AWS EC2** using **Docker** Compose to reduce production image sizes by 12%.
- Engineered an automated **CI/CD** pipeline using **GitHub Actions** for minimal downtime deployments, while implementing **Nginx** reverse proxy **SSL** termination and **AWS Security Groups** to block direct API access.

Patient Management Microservice | [GitHub](#)

Java, Spring Boot, gRPC, Kafka, PostgreSQL, Docker, AWS CDK, LocalStack

- Built a production-style **microservices** system with 5 independent services, each owning its own **PostgreSQL** database, communicating via **gRPC** (synchronous) and **Kafka** (asynchronous event streaming) through a Spring Cloud Gateway.
- Provisioned the full AWS infrastructure as code using CDK (Java) — **ECS Fargate**, **RDS**, **MSK**, **ALB**, and **VPC** — deployable to real **AWS** or emulated locally via **LocalStack**.

JobTrack - Full-Stack Job Application Platform | [GitHub](#) | [Live Site](#)

Next.js, TypeScript, Prisma ORM, PostgreSQL, NeonDB, Shadcn/ui

- Built a **full-stack** job tracking platform with **Next.js (SSR, shadcn/ui)** and **Google OAuth 2.0** for secure auth, enabling users to manage their entire job application lifecycle, deployed on **Vercel** with a **PostgreSQL** database on **NeonDB**.

EDUCATION

Bachelor of Computer Applications | S.S. Jain Subodh PG College, Jaipur | 2024 - 2027

Grade 12 - PCM - 90.2% | KPS Udaan, Jaipur | 2024

CERTIFICATIONS

- **Microsoft GitHub Foundations** | [Verify](#)
- **Back End Development & APIs – FreeCodeCamp** | [Verify](#)
- **Problem Solving (Intermediate) – HackerRank** | [Verify](#)

ADDITIONAL

- **Twice** recommended by the **Indian Air Force** via 5-day SSB Interview, conference and medical tests.
- Solved **300+** algorithmic **problems** across [LeetCode](#), [CodeForces](#), and [HackerRank](#).
